

20 Year Guarantee

Care & Maintenance

The purchase of a Garstone Design lounge suite is an investment in quality. Garstone Design have carefully chosen the quality materials to ensure long product life.

To protect your investment, proper care and maintenance routines should be established and the following particulars observed.

Cushioning and filling materials will gradually soften and flatten with normal use. Fluff and turn cushions to equalise wear. Fabric and particularly leather may develop comfort creases. This can be considered normal, but attention should be paid to heavy creasing which should be removed by adjusting the covers.

Special attention should be given to the instructions on our leather care label.

This is provided in our Warranty pack & attached to each piece of furniture.

Compare these quality features found only in superior lounge suites

Feature	Benefit
Solid kiln dried plantation grown timber frame	Superior frame strength with no chipboard used
Panel lined outside back and arms	Adds to frame strength and enhances tailoring
No Sag Steel Springs with swinging arm link	Provides constant tension with greater seat travel
'Ultra Fresh' treated foam with lifetime guarantee	Longer seat life and is sanitised
20 year manufacturers guarantee	Product constructed to highest standards
Australian made and owned	Better colour choice, faster delivery times & provides JOBS FOR AUSTRALIANS!
